INVITATION TO PAY ADDITIONAL FEES

(PCT Article 17(3)(a) and Rule 40.1)

Date of mailing (day/month/year)	24/05/2005
Applicant's or agent's file reference MED 2 1324 PCT	PAYMENT DUE within ONE MONTH from the above date of mailing
International application No. PCT/US2004/012744	International filing date (day/month/year) 23/04/2004
Applicant	
STERIS INC.	

1. This International Searching Authority

- (i) considers that there are 4 (number of) inventions claimed in the international application covered by the claims indicated below/on the extra sheet:

and it considers that the international application does not comply with the requirements of unity of invention (Rules 13.1, 13.2 and 13.3) for the reasons indicated below/on the extra sheet:

- (ii)  has carried out a partial international search (see Annex)  will establish the international search report on those parts of the international application which relate to the invention first mentioned in claims Nos.:

see annex

- (iii) will establish the international search report on the other parts of the international application only if, and to the extent to which, additional fees are paid

2. The applicant is hereby invited, within the time limit indicated above, to pay the amount indicated below:

EUR 1.550,00	x	3	= EUR 4.650
Fee per additional invention		number of additional inventions	total amount of additional fees

Or, \_\_\_\_\_ x \_\_\_\_\_ = \_\_\_\_\_

The applicant is informed that, according to Rule 40.2(c), the payment of any additional fee may be made under protest, i.e., a reasoned statement to the effect that the international application complies with the requirement of unity of invention or that the amount of the required additional fee is excessive.

3.  Claim(s) Nos. \_\_\_\_\_ have been found to be unsearchable under Article 17(2)(b) because of defects under Article 17(2)(a) and therefore have not been included with any invention.

## INVITATION TO PAY ADDITIONAL FEES

International application No.

PCT/US2004/012744

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

## 1. claims: 1-29

A method of deactivating a pathogenic chemical agent by subjecting the pathogenic chemical agent to a peroxide and a nitrogen compound of formula NR<sub>1</sub>R<sub>2</sub>R<sub>3</sub> where R<sub>1</sub>, R<sub>2</sub>, R<sub>3</sub> are H or alkyl group.

## 2. claims: 30-40, 46-53

A method and an apparatus of deactivating a biologically active substance by subjecting it to a mixture of a strong oxidant and an alkaline compound both in a gaseous form.

## 3. claim: 41

A method for decontamination of an item contaminated with GD, the method characterized by contacting the item in an enclosure with a vapor containing a peroxide and ammonia

## 4. claims: 42-45

A method of deactivating a pathogenic chemical compound by forming a peroxide vapor and increasing the pH of the vapor with a pH-increasing compound.

The common concept linking together the independent claims is the deactivation of a pathogenic chemical agent by contacting this pathogenic chemical agent by a mixture containing a peroxide. From document US 6245957 it is known that chemical warfare agents are neutralised by contacting these with a composition containing peroxide. This composition can be in solid, liquid, spray or vapor form (see col. 2, lines 4-61 and col.3, lines 1-8). Accordingly the common concept linking the independent claims of the application is not novel. The independent claims define 4 different inventions not linked by a single general inventive concept. The application, hence does not meet the requirements of unity of invention as defined in Rules 13.1 and 13.2 PCT.

Annex to Form PCT/ISA/206  
COMMUNICATION RELATING TO THE RESULTS  
OF THE PARTIAL INTERNATIONAL SEARCH

Int'l Application No	PC1/US2004/012744
----------------------	-------------------

1. The present communication is an Annex to the invitation to pay additional fees (Form PCT/ISA/206). It shows the results of the international search established on the parts of the international application which relate to the invention first mentioned in claims Nos.:  
*see 'Invitation to pay additional fees'*
2. This communication is not the international search report which will be established according to Article 18 and Rule 43.
3. If the applicant does not pay any additional search fees, the information appearing in this communication will be considered as the result of the international search and will be included as such in the international search report.
4. If the applicant pays additional fees, the international search report will contain both the information appearing in this communication and the results of the international search on other parts of the international application for which such fees will have been paid.

Further documents are listed in the continuation of box C.

Patent family members are listed in annex.

\* Special categories of cited documents :

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier document but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

- "T" later document published after the International filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the Invention
- "X" document of particular relevance; the claimed Invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed Invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- "&" document member of the same patent family
